# Vote for the Party of the Person?

We hear these words more and more – *I vote for the man, not the party.* People saying tis seem to be attempting to show that they are above party politics. They are more thoughtful and considerate in casting their vote when compared to those who vote the party ticket. More than ever before a higher percentage of voters are shunning party affiliation to register as independents, or conservatives, or are declining to state their party preference at all.

So why then do political parties exist? Fundamentally, the purpose of a political party is to bring together a group of individuals who share a common set of beliefs. A group who believes in a similar fundamental philosophy. A group that looks beyond the smaller disagreements between them to work together to elect its members to public office so that their philosophy can prevail in public policy.

The FCGOP and Wyoming Republican Party exist for that purpose. Our purpose is to help elect individuals to public office who advocate and promote the principles we all agree are important to national, state and local government.

\*\*\*It is important to remember that the first day a government body, such as the Wyoming Legislature, convenes, **the group with 51% membership controls every piece of legislation** for the entire session. Without that 51%, Republican principles and programs will not be enacted. \*\*\*

\*\*The political system of this country was designed so that voting for the "man" or the "individual" is best employed in the <u>Primary</u> Election when multiple candidates compete for nomination to run in the general election. This is where we must ensure our candidates share our beliefs and will further our principles!!!\*\*

**The general election is the election that tests the philosophy of parties.** The general election is when the <u>philosophy that will prevail</u> in the coming term is decided. If members of political parties do not band together to win with their philosophy, they will suffer the frustration of not seeing their fundamental beliefs applied.

#### WHAT IS A PRECINCT CAUCUS?

A caucus is a meeting of a group of persons belonging to the same political party to select candidates for offices and/or to decide on policy.

Every two years, Republican Precinct Committeemen/women host meetings for others living in their respective voting precinct. At the County Caucus, they put into words issues and concerns that they have for the county, state and nation, in the form of:

- <u>Platforms:</u> Platforms are timeless statements of our broad principles. The Platform is not something that changes with the current issues of the day of by political whim.
- <u>Resolutions:</u> Resolutions address the issues of the day. Individual resolutions deal with specific events and specific issues, and often propose specific actions to solve a problem, as well as providing relevant facts and principles, based on our values expressed in the party platform as the two are inextricably linked.

Caucus attendees also decide the precinct delegates and alternates wo will attend the County Convention.

Caucus attendees also decide to the precinct delegates and alternates who will attend the county convention.

In many neighborhoods, anywhere from two to six people may attend a precinct caucus, while some areas have mass meetings where people from many precincts get together at the same location.

Fremont County has previously held caucus' in areas where precincts are combined and were thought best. In 2020, FCGOP had one for the county. FC GOP bylaws Art. IV 2C. 3.30.2018. We had a lot of new members and they learned and gained insight from longtime members and dedicated Republicans. This is always an exceptionally important year for our state and nation so understanding the system and knowing how to be effective as the FCGOP Central committee and as republicans is a top priority!

# **Precinct Caucus Information**

#### WHEN DOES THE CAUCUS MEET?

## 9. Adjourn

#### **Platform Planks & Resolutions**

The Fremont County Republican party platform is a document that consist of three sections: (1) Preface, (2) Platform, (3) Appendix of Resolutions.

Due to the relationship between the platform and the resolutions, they are organized in parallel, with identical chapter headings. This makes a clear connection between the principles that guide their creation. The chapters are as follows:

- A. Jobs and the Economy
- B. Crime and Law
- C. Land, Agriculture and Environment
- D. Government and Budgets
- E. Education
- F. Health and Society
- G. Immigration and (Illegal) Immigrants
- H. Energy
- I. Foreign Policy and Defense

#### SAMPLE PLATFORM PLANK

The Fremont County republican party believes that all taxes collected must be used for the constitutional purposes of government. It is irresponsible to run up debts that are passed on to our children and grandchildren. Texas should never be more than necessary.

#### SAMPLE RESOLUTION

Get resolved that The FCGOP calls for the state of Wyoming to pursue the export of Wyoming call through ports to foreign consumers under the federal interstate commerce clause. Land and water number 10

#### HOW TO DEVELOP A PLATFORM PLANK

Begin your platform by clearly stating your beliefs. For example, your platform might start out, "I believe that the purpose of legislation and regulation should be to improve liberty and promote prosperity for citizens."

Once your beliefs have been stated, prepare to offer a defense of your platform with documented facts, not opinions. Continue the beginning of the Platform statement by outlining the various points that you will use in your presentation to the Fremont County convention.

#### **HOW TO DEVELOP A RESOLUTION**

Resolutions express consensus on matters of public policy, delivering criticism or support on a broad range of social issues, legal rights, court opinions and even decisions by governmental bodies.

As a spontaneous expression of opinion, a resolution is intended to be timely and to have a temporary effect. A resolution should address a specific current event, court case, piece of legislation or some other type of act or occurrence. Although a resolution does not have to be tied to a specific platform plank, in many cases relevant platform planks already exist.

A resolution merely asserts an opinion that the FCGOP Central Committee wants to emphasize. For example, state and federal laws already criminalize illicit drugs, but lawmakers have frequently passed resolutions decrying illegal drug use. Political frustration sometimes leads us to declare opposition to laws that we cannot change. Who Is Who and Contact Information

#### I AM A REPUBLICAN BECAUSE...

I BELIEVE the strength of our nation lies with the individual and that each person's dignity, freedom, ability and responsibility must be honored.

I BELIEVE in equal rights, equal justice and equal opportunity for all, regardless of race creed, sex, age or disability.

I BELIEVE that free enterprise, individual initiative, and our natural resources have brought this nation opportunity, economic growth and prosperity.

I BELIEVE government must practice fiscal responsibility and allow individuals to keep more of the money they earn.

I BELIEVE the proper role of government is to provide for the people only those critical functions that cannot be performed by individual so private organizations and that the best government is that which governs least.

I BELIEVE the most effective, responsible and responsive government is a government closest to the people. We the People grant powers to our governments – local, state and national – not the other way around.

I BELIEVE Americans must retain the principles that have made us strong while developing new and innovative ideas to meet the challenges of changing times.

I BELIEVE Americans value and should preserve our national strength and pride while working to extend peace, freedom and human rights throughout the world.

FINALLY, I believe the Republican Party is the best vehicle for translating these ideals into positive and successful principles of government.
